Interesting fact about me: I obtained my private pilot's license when I was 16!

I became involved in Enactus during my freshman year of college, and quickly saw the value it offered for my professional development. When I transferred my to complete my degree in Environmental Science at a university without Enactus, I started a new team! After graduating, I worked for the US Army Corps of Engineers as a project manager in environmental permitting. Six years ago I rejoined Enactus as a Regional Program Manager and have worked my way up to Director of Programs, Enactus USA. I am currently working towards my Master's degree in Sustainability Leadership. As an Enactus alumna, I strongly believe in the benefits the organization provides for young professionals growing their network, developing as leaders, and expanding their education beyond the classroom. In my free time, I enjoy being outdoors in the beautiful Sierra Nevadas, working on a DIY project, spending time with my pups, and traveling.

Hi, I'm Jenny. I have worked with Enactus since May 2017. I have a degree in Organizational Communication from Missouri State University. Before Enactus I worked in the education sector at a small technical school as a financial aid coordinator and as the registrar. I love interacting with all the students and faculty and look forward to working with you.

When I am not at work, you can usually find me hanging out with my family. I have three daughters that keep me very busy between cheerleading, band and choir. We love the outdoors and are always on the look-out for the next great spot to visit.
