

Management Trainee

If you're looking to start your career with a company that grows their managers and leaders from within the organization, then the Enterprise Management Training Program is for you. Whether you see yourself in sales, business development, customer service or operations, this program will prepare you to create your ideal career. As a Management Trainee, you can count on a defined career trajectory with a clear beginning and an open end — meaning you can take your training and shape your future. And with our promote-from-within philosophy, you will have plenty of opportunities to advance without ever having to change companies.

As a Management Trainee, you'll start learning our business from day one while based out of one of our neighborhood branches. You will be entrusted to serve as both the face of Enterprise to customers and partners and the behind-the-scenes operational expert. In our structured program, you will master the knowledge and skills you need to eventually run your own branch, cultivate new business and develop your team.

In our hands-on learning environment, you will receive the guidance, mentoring, and support you need to be successful. You will also get out into the community and establish the relationships essential to building your own business.

We'll teach you how to excel at customer service, sales and marketing, finance, and operations. And you'll learn what it means to always put our customers first. Ours is a culture of friendly competition, which is critical to growing our business — and your success.

Management Trainee Intern

If you're looking to hit the ground running, the Enterprise Management Internship will help you build valuable business and leadership skills. For a university/college student, the real-world professional experience you'll receive during the internship will help you stand apart from the crowd, and will be more than just a line on your resume.

From day one as a paid intern with Enterprise, you'll learn what it takes to run a successful business and acquire highly marketable skills in management. Our university/college interns take on the same challenges as our first- and second-year full-time professionals. It's a team-based environment; and throughout your internship, your peers will be right by your side helping you learn, grow and have fun.

When you join our Management Internship Program, you'll soon discover that every day is different because it is filled with new, exciting, rewarding and often unexpected opportunities. For a season, we'll put you in the middle of everything, just like our Management Trainees. We'll give you the chance to develop the skills you need to manage a fleet of vehicles, take care of customers, develop marketing strategies and build relationships with customers and coworkers.

During our internship, you'll use the skills you learn to complete intern projects and engage in some friendly competition with your peers. You may also be eligible for performance incentives and employee referral rewards.
